WEATHER BULLETIN.  
WASHINGTON, Dec. 17.—For lower  
Michigan: Snow flurries, warmer in the  
northwest portion, winds becoming  
southeasterly, warmer Tuesday morning.

DANGERS OF ANARCHY.  
European anarchy anarchy that a  
bomb will be thrown every month. The  
barbarous theatre disaster was caused  
by the one for November and the cham-  
ber of deputies in Paris witnessed the  
explosion of the one for December. When  
and where the one for January will be  
hurled occasions much solicitude on the  
part of the police authorities of the  
various states of Europe, particularly  
in those sections that appear to be  
hotbeds for the enemies of the govern-  
ment. The increasing frequency of these  
outbreaks of a fanatical mania to  
destroy life and property is year by year  
becoming a more menacing danger to  
our civilization. That the individuals  
who, as they see it, offer themselves as  
martyrs to assume the risk of dealing  
death to their fellow men, are fit sub-  
jects for asylums before the act there  
can be little doubt. Symptoms of the  
mania do not seem to mark the indi-  
vidual, or at least are not so readily  
recognized by officers of the law that  
confiscation appears practicable. One  
great difficulty in treating with anarchy  
is its followers have been allowed to  
make it appear that their creed is a  
political one, while in fact their acts are  
crimes against society and all govern-  
ment alone. In the near future, unless  
speedily and thoroughly stamped out, it  
will close the legislative halls of the  
world, including our own congress. It  
will make the rulers of the continents  
more secluded and the officials of our  
government will be warranted on the  
grounds of personal safety in refusing to  
appear in public places so frequently.  
This will be in contradiction with our  
ideal of popular government and the  
theory that officers are the servants of  
the people yet will be justified by future  
events. The assassination of President  
Garfield and Mayor Harrison of Chicago  
were crimes which prove that we  
have in our midst those elements of  
society which are now so dangerously  
breaking out in Europe. It is the duty  
of the citizen to further that sentiment  
in the community which supports the  
office of the law in making it so warm  
for the anarchist that he may at an  
early day conclude there is no room for  
him in America.

CLOSE OF THE YEAR.  
The full that usually attends the closing  
days of the year is having its effect  
upon Wall street and stock operations  
are limited in consequence. The cus-  
tom of making up annual accounts and  
yearly balances diverts attention from  
regular business. Writing of the move-  
ment of money at the seaboard Harry  
Craws says: "Though unexpected, the  
exports of gold have little or no effect  
upon the market for securities. So far,  
the shipments have gone to Germany,  
and appear to have been caused by the  
condition of the Berlin money market,  
the rate on call loans there being con-  
siderably higher than here. This natu-  
rally causes German balances resting  
here to go home. The rate of sterling  
exchange does not admit of shipments to  
London, nor are there any conditions  
at present in sight calculated to cause  
any movement of the metal in that  
direction. There are two facts calculated  
to hold any such tendency in check.  
In the first place, our imports of mer-  
chandise are very light and are likely to  
remain so until the new tariff takes  
effect, and next, we have, since the re-  
peal of the silver purchases, about \$35,  
000,000 worth of yearly surplus of silver  
bullion for export which will take the  
place of so much gold in the settlement  
of our foreign balances. In any event,  
we could well afford a moderate export  
of gold, should the condition of our for-  
eign balance require it; for the present  
excessive accumulation of idle money at  
the seaboard centers is anything but a  
healthy factor in the situation. The  
virtual pledge given by the city banks  
to the treasury to meet, from their own  
stocks, any export of gold up to \$30,000,  
000 has an assuring effect under the  
present depleted condition of the treas-  
ury reserves.

There appears to be little change  
from the general depression of the busi-  
ness of the country. So far as concerns  
the interruptions attendant on the  
change of tariff, that cause of obstruc-  
tion may be regarded as having touched  
its period of climax. Manufacturers are  
not yet certain what are to be the new  
duties, and they therefore do not know  
what changes in wages may be neces-  
sary, nor what they can afford to pay for  
raw materials, nor whether they may  
not have to operate for a time at a loss;  
nor can they yet tell, within six months,  
when the new duties will take effect.  
This makes the immediate status of all  
our industries one of utter suspense,  
and in some cases of total suspension of  
operations. But, at the same time, we  
are approaching a stage when allevia-  
tion will begin to appear. Within the

last ten days, the committee on ways  
and means have made some welcome  
concessions to manufacturers, and a dis-  
position is apparent on both political  
sides, to hasten the bill to its passage,  
and to consult the convenience of the  
domestic interests as to the time of putting  
the new duties in force. The very de-  
pression of trade consequent upon the  
initiation of the change, is causing wage-  
earners to be more tractable and more  
willing to conform to the impending  
lower range of prices, and already  
large concessions have been made by  
workmen towards the new conditions  
which the change makes inevitable.  
The prevailing depression is also severely  
contracting the imports, with the effect  
of leaving the markets more in the  
hands of home manufacturers. These  
are counter-considerations which must  
be taken into the account in a fair es-  
timate of forthcoming industrial and com-  
mercial conditions; and they suggest  
reasonable grounds of hope that the  
spring months may bring some consid-  
erable alleviations of the abnormal con-  
ditions that are now playing havoc with  
the trade of the country. The nation  
has not lost its vast resource, nor its  
marvelous elasticity, nor its quick fac-  
ility of adapting itself to new conditions;  
and however disappointed and embur-  
sened its great industrial interests may  
be at the new conditions imposed upon  
them, their motto is still nil desperandum."

LET HAWAII ALONE.

From the Oakland, California, dis-  
patch published exclusively by THE  
HERALD Sunday morning, it appears  
that Minister Thurston is about to re-  
turn to Honolulu. He makes no secret  
of his intention to assist in establishing  
a republic there. There can be little  
doubt of the success of the movement,  
if it has the united support of President  
Dole and the friends of the provisional  
government. The provisional govern-  
ment first established, to continue only  
until such time as annexation to the  
country was possible, has demonstrated  
that it is no weakling. The men who  
are behind it are neither pigmies nor  
savages. They are men of brains, en-  
ergy and courage—Americans who, by  
birth, education and tradition will be  
very slow to again submit to the rule of  
a despotism. They will prove posses-  
sors of capabilities to govern, and to  
formulate a government, large enough  
and broad enough for so small a coun-  
try as Hawaii. Mr. Thurston's decision  
that a republic should be established is  
a wise one. The present administration  
is so opposed to annexation, so deter-  
mined to bring about a condition of  
protection, is not possible now. The  
people of Hawaii have governed them-  
selves for nearly one year, and can con-  
tinue to do so for three years more.  
Then the people may be counted on to  
elect a republican, an American, as  
chief executive, and the right thing will  
be done. In the meantime popular in-  
dignation will compel Gresham and  
Cleveland to keep hands off and let Ha-  
waii alone.

As iron soldier has been invented,  
which when wound up in active service,  
marches up to the enemy, delivering  
shots from a magazine in his abdominal  
cavity, and finally winds up his glorious  
career by blowing himself to pieces in  
the midst of the opposing ranks by  
means of dynamite stored in his head.  
How handy this would be for men of  
Cleveland's stamp. In case of a draft,  
they could step to the telephone and  
order substitute from the nearest ma-  
chine shop.

GEORGE H. BARBOUR, a citizen of De-  
troit, interested himself in behalf of the  
city poor and sent out one thousand cir-  
cular appeals to business men and mer-  
chants asking for donations. The scheme  
seems to have worked well. Replies in  
the first day of mail brought pledges  
which amounted to \$1,200. It is pro-  
posed to distribute the donations through  
the Associated Charities, an organiza-  
tion very similar to the Charity Organi-  
zation society of Grand Rapids.

It is calculated to arouse suspicion  
that some one with a strong political  
pull is working to defeat the prosecution  
in the Cronin murder case, that Cook  
county has no money to spend for the  
expenses incident to trial of Dan Coughlin.

If there is yet a democrat who is not  
satisfied that President Cleveland is en-  
tirely subservient to the great "I am"  
power, let him carefully review the last  
message of the would be dictator.

So the Crows have left their reserva-  
tion. They are probably en route for  
Washington to furnish the menu for  
Cleveland and Gresham's Hawaiian  
banquet.

The Hawaiian trouble is attributed in  
some quarters to the fact that Cleve-  
land's governor belt has slipped and his  
wheel has been going round rapidly.

Tax beastly weather which is coming  
along just now is probably a taste of the  
"raw material" democrats are crying for.

EXPULSION—every poison  
and impurity of  
your blood, by Dr.  
Vigore's Golden  
Medical Discovery.  
Then there's a  
clear skin and a  
clear system. Tel-  
ber, Salt, rhubarb,  
Rheumatism, Erysipelas,  
Tumors and Swellings, and all blood, skin,  
and scalp diseases, from a common blotch or  
eruption to the worst scurf or itchy skin are per-  
fectly and permanently cured by it.

In building up needed flesh and strength of  
pale, puny, scrofulous children, nothing can  
equal it.

Call on the ordinary spring medicine or  
sawdust "cure." The "Discovery" works equally  
well at all seasons. All the year round, and  
in all climates, it is guaranteed, as no other  
blood medicine is. It never fails to benefit or  
cure, you have your money back. It's not  
only the best blood purifier, but it's the cheap-  
est. You pay only for the good you get.

Buy of reliable dealer. With any other  
medicine, the dealer pays them before will  
probably be urged as "just as good." Pur-  
chase it, for there, but it can't be, for you.

AMUSEMENT NOTES.

Sadie Hanson in "A Kentucky Girl"  
opened a week's engagement in the  
Grand last night. The plot is familiar  
to the patrons of this popular house,  
having been seen here last season. The  
realistic new mill scene, the drawbridge  
and the race of the hand-carts, to say  
nothing of the black-smith shop, were  
well staged and delighted the audience.  
As Carthy Jurey, Miss Hanson has a  
rough subtitle part which exactly suits  
her methods. She portrays an honest,  
ignorant, loving, tender mountaineer  
girl, an only Sadie Hanson can. James  
Gayler worked hard to make Tipton Stage  
breezy. The Hickory Hill of Sam T. Shaw  
was a good piece of character work.  
Mr. MacFadden was good as Harry  
Condon; the Rev. Michael Halford of  
the Grand was funny. "A Kentucky Girl"  
has a good plot, the occasional scenic  
effects are excellent and the specialties  
are clever. With these drawing cards  
the piece should do business.

There is a strong variety performance  
given in Smith's this week. The best  
thing in the club is the club swinging  
act. The Harrells do a good statue act, with  
little apparent fear of insanity from the  
use of bronze paint. Wren & Daily re-  
peated their success of last week in  
their spilt dance. Watson & Jenks are  
funny comedians. The burlesque, "A  
Governor for a Day," possesses some  
very good, a lot of catchy music, glittering  
costumes and an amusing match. The  
bill closes with an afterpiece, "The  
Wild West," with Harry Wood as an  
Indian chief.

Friday evening the always popular  
Michigan University Glee and Banjo  
club will entertain in Lockery hall.  
New songs and some choice novelties  
will be introduced. The sale of reserved  
seats will be open Wednesday morning  
at the box office.

Tuesday night Miss Anna Carpenter  
will be heard in concert with the Ladies'  
Literary club. Miss Carpenter will be  
assisted by local talent, and this is her  
last appearance in public before joining  
Seid's orchestra as soprano soloist.

"Wang," the merry opera dealing the  
troubles of a regent of Siam, will be  
heard in the Powers on Wednesday  
night. The piece is elaborately staged  
and costumed. Charles Stevens will  
appear in the title role.

Tonight Henry George will lecture in  
Lockery hall on "The Crime of Poverty."  
The lecturer is famous as a theorist,  
the topic timely and the object a  
worthy one.

"The Girl I Left Behind Me," Bal-  
laseo Fyle's military drama, will be seen  
in The Powers on Saturday night.

Brooke Re Wrist.  
Mrs. Emma L. Mills of the Evening  
Press slipped on the icy walk at the  
corner of Ransom and Lyon streets yester-  
day afternoon, and sustained a Colles  
fracture of the left wrist. Dr. Hubert  
reduced the fracture.

AMERICAN MONTE CARLO.

One Will Be Opened at the Hot  
Springs.

LAS VEGAS, N. M., Dec. 17.—It is re-  
ported that Waddingham, a noted west-  
ern sporting character, has leased the  
Montezuma hotel at the Hot Springs,  
and that he will make of it a regular  
Monte Carlo. This hotel was built by  
the Atchison road at a lavish expense  
for the purpose of giving its patrons a  
comfortable stopping place on the over-  
land tour to California, but has never  
been run at a profit as a winter resort.  
Waddingham tried to secure a lease of  
a hotel at Glenwood Springs, Colorado,  
for this purpose some years ago, but the  
deal was not consummated.

Muldoon to Meet O'Fadden.

Dr. Louis, Dec. 17.—Martin Muldoon  
has agreed to throw McFadden twice in  
an hour New Year's evening at the  
Olympic theatre. Manager short will  
put up a \$500 purse for the match. If  
McFadden stays with Muldoon that  
night, without Muldoon gaining two falls  
or if he succeeds in gaining one fall  
from Muldoon in the hour, he wins the  
purse.

Hood's Cures

After all Others Fail  
Burning Sores on the Face.

Finley Davis  
Constantine, Mich.

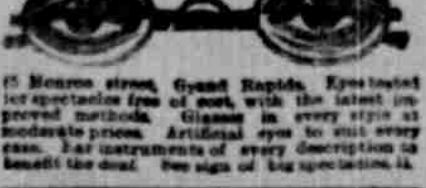

"I cannot tell in this letter all that Hood's  
Sarsaparilla has done for us, but can say this  
much: Our son Vinny had a running sore on  
his face, beginning on one side and moving under  
his chin to the other side. We tried every thing  
in that line at the very best doctors. He had 6 years  
it continued, unsightly and very trouble-  
some. Several persons urged us to give him  
Hood's Sarsaparilla, and we found that he im-  
proved while taking the first bottle. We kept on

Hood's Cures

giving it to him until he had taken four bottles.  
The sores have entirely healed up, nothing remain-  
ing but the scar, which he will carry all his life.  
He is sound, strong and healthy, and we give all  
the praise to Hood's Sarsaparilla." Mr. and  
Mrs. G. W. Davis, Constantine, Mich.

Hood's Pills are prompt and efficient yet  
easy to take. Sold by all druggists. 25c.

A. J. SHELLMAN  
Scientific Optician.

St. Nazaire street, Grand Rapids. Reputable  
optician for the past 20 years. Has the latest  
proved methods. Glasses in every style at  
moderate prices. Artificial eyes to suit every  
case. For catalogue and every description of  
benefit the mail. Free of charge. 25c.

THE FIRE INS. CO.
